

# ELITE BEDDING

## PRODUCT DESCRIPTION

The combination of natural wood shavings and plant fibre gives Spanvall Elite Bedding an extremely high absorbency, stays fresh for a long time and is very easy to work with. The particle size is uniquely compounded and sifted multiple times to achieve optimum absorbency – and is free of bacteria and fungus.

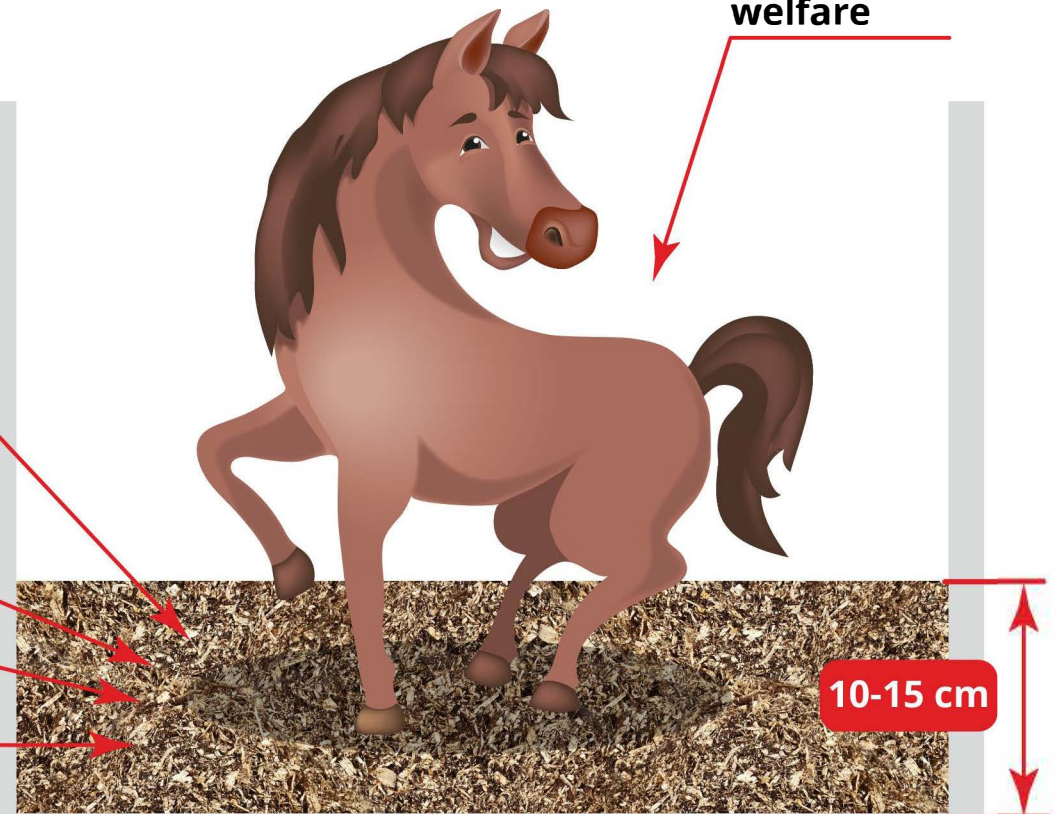

**100 % dust free**  
(controlled degree of moisture)

**100 % biodegradable**

**High absorption of ammonia**

**High absorbency capacity** (approx. 10 times its own weight)

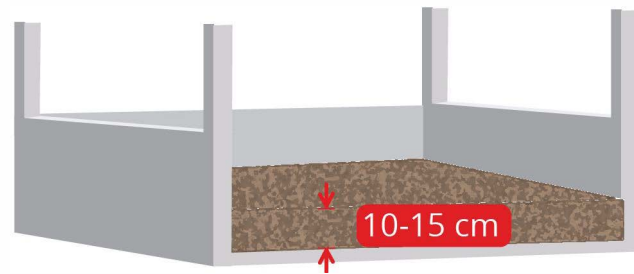

**High animal welfare**

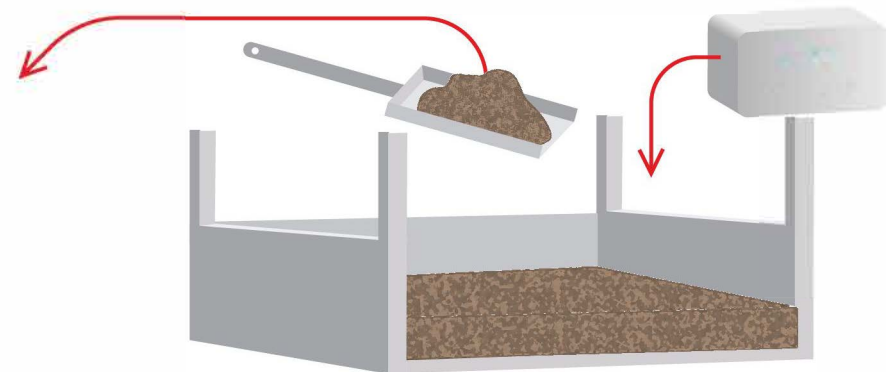

**10-15 cm**

## HOW TO USE

- 1 Start by creating a good and solid mattress from Elite Bedding by spreading 6-8 bales of bedding per 12m<sup>2</sup> (approximately 10-15 cm)

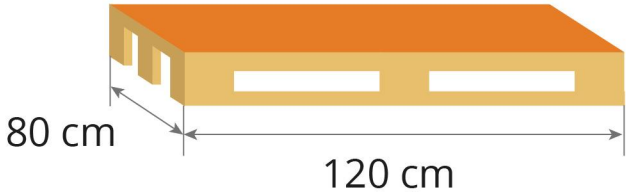

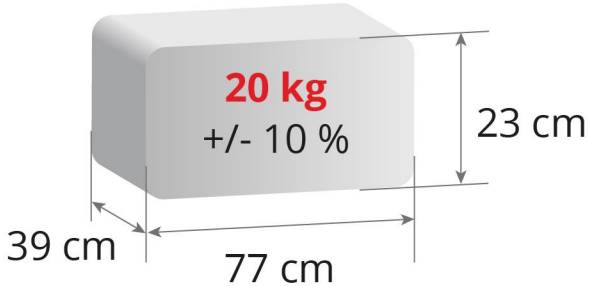

- 2 Remove wet spots (urine) and horse droppings daily and replenish with more bedding  
-Add more bedding as needed

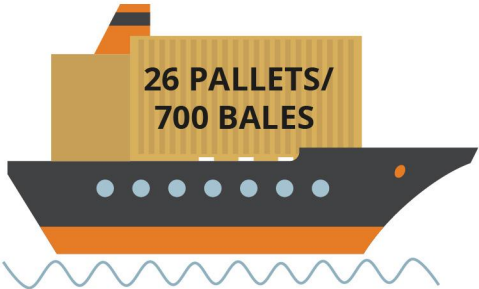

- 3 The mattress can work up to 3-6 months before being replaced completely - Therefore a box shall not be mucked completely each week

**LOGISTICS**

= 27 bales on each pallet

**40' HC CONTAINER**

**TENT TRUCK**
